

Hygiene Policy

Chamäleon Theater GmbH

Preamble

In the following hygiene policy, Chamäleon Theater GmbH outlines its standards for the management of the coronavirus. A hygiene officer and a designated deputy have been appointed for the company. Since the legal regulations change over the course of the pandemic, the hygiene policy is regularly adapted according to the new regulations.

Name: Pascal Lorenz

Address: Rosenthaler Str. 40/41, 10178 Berlin

Telephone 030-40005931 E-Mail lorenz@chamaeleonberlin.com

1. General

The Chamäleon Theater takes into account the hygiene regulations, the applicable distance rules and the other occupational health and safety standards against SARS-CoV-2 (BMAS) as follows. The specifications set out in the SARS-CoV-2 Infection Protection Ordinance of the State of Berlin <https://www.berlin.de/corona/massnahmen/verordnung/> are the determining criteria here. All measures have been closely examined and evaluated by a separate risk analysis.

The Chamäleon Theater recommends that persons with a higher risk (www.rki.de/DE/Content/InfAZ/N/Neuartiges_Coronavirus/Risikogruppen.html) of a severe case of COVID-19 (diseases of the respiratory system) do not attend events.

Visitors with symptoms of illness, visitors who have had contact with an infected person prior to their visit, or visitors who have entered the theatre from a high-risk area without completing quarantine will not be admitted to the Chamäleon Theater.

The behavioural guidelines for visiting the theatre in accordance with the hygiene policy are indicated in a clear and accessible manner at all critical locations in the venue by means of signs (foyer, toilets, bar area, theatre auditorium, backstage).

The phrase "persons present at the same time" used in the Infection Protection Ordinance refers to all persons present in the Chamäleon Theater.

2. Cleaning

Cleaning schedules are posted in the public areas of the Chamäleon Theater, indicating which areas are cleaned and how frequently.

In addition to the daily basic cleaning of the Chamäleon Theater, all contact surfaces are cleaned before the event begins (in particular door handles, handrails, table surfaces, etc.). All contact surfaces with heavy handling are disinfected several times during the course of the event.

Floor surfaces are cleaned every working day as part of the basic cleaning.

3. Ventilation

The Chamäleon Theater has a modern mechanical ventilation system that continuously introduces fresh air into the auditorium. The air volume is replaced

by fresh air six times an hour. This ventilation system meets the legal requirements for auditoriums.

4. Hygiene Measures for Visiting the Theatre

4.1 Ticket Purchasing

Tickets for performances at the Chamäleon Theater can be booked by telephone via the ticket hotline or the online shop. If possible, tickets should be paid for using contactless payment options. When booking tickets, the provision of personal data such as surname, first name, address as well as contact details such as telephone number or email address is mandatory for the purchaser of the booked tickets in order to ensure contact tracing in the event of infection by the corona virus. Tickets can only be booked on a seat-by-seat and personalised basis. A transfer to other visitors is not possible. Personal data will be deleted in accordance with the EU Data Protection Regulation.

4.2 Distance Rules

All visitors are instructed to maintain a minimum distance of 1,50 m throughout their stay. In the theatre auditorium, appropriate measures have been taken to maintain a distance of 1,00 m between unfamiliar households. We follow the guidelines and recommendations of the Senate Department for Culture and Europe.

4.3 Disinfection

Dispensers with disinfectant are provided at all entrances and exits as well as in the public areas of the theatre throughout the duration of the visit. Visitors are requested to disinfect their hands thoroughly when entering the theatre.

4.4 Mandatory Masks

Wearing a medical mouth/nose protection is mandatory for all visitors during their entire visit to the Chamäleon Theater. During the performance and after taking their seat, the medical mouth/nose protection may be removed. The medical mouth/nose protection must be put back on when moving through the premises. Children under the age of six are excluded. For visitors who do not have a medical face mask, we will gladly provide one at the theatre box office.

4.5 Entrance

As the Chamäleon Theater shares the entrance area and the staircase with the cinema, no general Chamäleon hygiene standards apply here. It is compulsory to wear medical mouth/nose protection in the stairwell. The hygiene regulations summarised here apply from the main entrance door to the Chamäleon Theater.

4.6 Admission Check

Admission checks will ensure that the maximum number of people permitted in the theatre is not exceeded. To ensure orderly and safe admission to the Chamäleon Theater, we ask visitors to arrive at least 30 minutes before the start of the performance for the admission check. For the admission check, we ask visitors to have their proof of vaccination, a negative test (PCR test, antigen rapid test not older than 24 hours) or proof of recovery ready (ideally in the Luca App, Corona-Warn App or Bärbarcode App). In addition, we ask that visitors bring their identity card or passport as well as their valid personalised admission ticket in digital or printed form. After the admission check, visitors are asked to proceed directly to the theatre auditorium on the first floor. There, we ask visitors to register with the Luca app via a QR code. The admission check will be carried out contactless by Chamäleon Theater staff.

4.7 Cloakroom

In order to avoid unnecessary crowding, the cloakroom will remain closed until further notice.

4.8 Directional System

A directional system was developed for the visitors to avoid crossing paths. The visitors are guided into the theatre auditorium through two entrances, whereby the direction of travel always leads in the same direction. All visitors are guided through a separate exit in the direction of travel in order to leave the theatre auditorium.

4.9 Placement

Placement in the Chamäleon Theater is carried out by our trained staff. Guests will be escorted to their seats by the staff in accordance with the distance rules and the directional system. Guests are requested to use only the seat they have booked. It is not possible to change seats before or during the performance.

4.10 Gastronomy

Due to the current circumstances, catering is only possible to a limited extent. Service staff will be available to guests before the show for drink and snack orders. There will be no table service during the show. Food service in the auditorium will not be offered until further notice. The bar area will be closed to visitors during the entire event. Drinks will only be sold at the seats. To avoid contacts and crowds, the catering closes after the show has started. Gastronomy after the show is unfortunately not possible.

4.11 Exit

The exit is carried out in compliance with the distance rules. Guests are required to keep a distance of 1,50 m from one another and to wear medical mouth and nose protection when leaving their seat. The exit takes place on the direct and shortest route to the exit.

5. Staff

All employees wear medical mouth and nose protection during work hours. Regardless of the employees' vaccination status, all Chamäleon employees are tested twice a week.

6. Contact and Author

The implementation of and compliance with the preventive measures described above are ensured by appropriate measures. It is ensured that the hygiene officer monitors compliance with the hygiene policy, having the necessary detailed knowledge of the individual measures.

It is ensured that the other staff members are informed and trained about the contents of the hygiene policy.
